Mr. G. Fred Pearson,  
45 Sackville Street,  
Halifax.

My dear Mr. Pearson:

In the University of Toronto the work of the students is divided in two sections, which probably should be united. There is the athletic side, and the undergraduates' general interests side. The athletic activities are guided by a Board of Directors two of whom are nominated by me from the professorial staff, one is chosen by the graduates, and five by the student body. They have charge of the general activities in connection with athletics, and the Governors hand over certain grounds to them to be under their supervision. They also control the expenditure of the gate receipts of Rugby, which float the other activities, but they are to present a budget at the beginning of the year outlining how the money is to be spent, and we are appointing a secretary to be in charge of the funds, owing to the fact that they have grown so enormously of late. The students council is in charge of the other activities, and we are putting on a compulsory fee next year to pay for a secretary for them, and to provide for certain of their necessities. When the new building is to be opened it may be necessary to unify these bodies, but if we do I am sure that we shall still retain the general constitution, faculty representation, graduate representation, and mainly undergraduate representation,

with a member of the Faculty always as Chairman. I hope that this information will be of some service to you.

Yours sincerely,

President.
